BBBEE Level 2

OUR HISTORY:

Hoëveld Radiators was founded in September of 1996 as a two-man operation which has grown from strength to strength due to the unrivalled customer dedication, hard work and quality assurance of our employees.

We currently employ 45 permanent staff and are ever expanding.

Our motto has always been to **do whatever it takes to keep our customers on the road and moving**, which if you work in the transport business, is very important indeed!

It has worked so well in the past that we can now include Barloworld, ALS Group, ALZU, INALA, Fraser Alexander , I.P.P , Babcock Equipment and Bell Equipment amongst others to our expanding client list. We believe in rewarding good customer-supplier relations by affording our reliable customers with below average item and service prices with additional settlement discount which is re-evaluated quarterly. We also believe in supporting the “little guy” and supply as well as support many small and micro size companies in our area.

OUR LOCATION:

Hoëveld Radiators and Lowbed Services are located in Middelburg Mpumalanga
At the following addresses:

RADIATOR AND SPARES DIVISION:

25 Mandela Drive, Vaal bank, Middelburg, Mpumalanga.

LOWBED DIVISION:

Plot BF4, Farm Teutfontein, 13km out of Middelburg on the Old Belfast Road.

OUR POSTAL ADDRESS:

P.O. Box 3347, Middelburg, 1050

**Middelburg is central to all the major coal mining, earthmoving and
Transport industries in Mpumalanga.**

This affords us the opportunity to render a 24-hour breakdown services.

OUR COMPANY STATEMENT:

We are committed to meeting the requirements and expectations of our customers at all times. We will ensure the highest level of Quality workmanship, ethical standards and respect for the individual through effective communication and teamwork. We expect no less from our suppliers. Through the dedication of our management team we will provide our customers with spares, repairs and services which will conform to their needs and requirements. Management will provide the necessary resources that will foster an environment of safe and healthy working conditions, competent and qualified staff, dedicated teamwork and the highest quality of workmanship obtainable.

OUR MISSION:

We want to be the leading supplier in the radiator, air, brake and trailer markets as well as boiler making, welding and low bed transportation. We mean to accomplish this by:

- * Creating value through competitive pricing
- * Offering flexibility in our service offerings
- * Creating sound and solid customer relationships
- * Training and Developing a competent workforce through specialized training
- * Consistently motivating our workforce.
- * Continuously improving productivity and setting new standards.

OUR VISION:

- * To be the leading supplier in the spares and heavy-duty transportation market and to have a competitive price structure for our valued customers.
- * Deliver our goods promptly and conduct our repairs with pride.
- * Work with our customers on a personal level, as apposed to the what's your account number? - frame of mind.
- * To ensure the best quality of service and workmanship.

OUR VALUES:

- * Commitment to health, safety, quality and supply
- * Appropriate participation from management
- * Mutual loyalty, trust and ethical business practice

RADIATOR DIVISION:

Repair, sale and manufacture of all radiators, oil and inter coolers, heat exchangers, retarders, tanks and affiliated parts and accessories according to specifications.

We hold the franchise for the Silverton Behr Radiator (Pty) Ltd agency.

Air Valves:

We Stock new air valves in a wide variety of supplier makes. Air installations on site and repairs in our workshop are also done. Air kits, nylon tubing in various sizes complete with fittings, compressors and test fittings are also part of our product range.

Brake and Clutches:

We supply everything from new brake drums to a wide variety of brake linings in all oversizes to new clutch kits, pressure plates and flywheels. We cut flywheels and drums down to size and do re-lining of all brake shoes. We also stock brake pads and discs on the heavy-duty vehicles including the popular Actros range and new and reconditioned brake calipers. Components such as rivets and facings are also available.

Trailer Spares:

Line connectors, airbags, hubs, seals , globes, light brackets, spring packs, wheel spanners, inserts and a whole lot more are available to you as our valued client. Parts are also available for BPW specifications and we also offer the service of re-piping trailers in our workshop yard which includes all necessary replacements such as pipes, valves, etc.

TRAILER AND MACHINE RE-BUILDING:

Due to an overwhelming response from our Clients, we are now re-builders of all heavy-duty machines and trailers.

From complete re-spraying, to boiler making, stainless steel aluminium welding, repairing of buckets, we do it all to ensure that when you collect your vehicle it looks almost as good as the day you bought it!

We are also in the process of importing tips and adaptors for buckets at very competitive prices.

LOWBED AND HEAVY-DUTY TRANSPORTATION:

OUR FLEET CURRENTLY COMPRISES OF:

- 1 x Stepdeck Trailer
- 2 x 100 Ton Lowbeds
- 1 x 75 Ton Lowbed
- 1 x 40 Ton Lowbed
- 1 x 45 Ton Lowbed
- 3 x Hi-Abs
- 1 x Rollback

We are equipped to handle all your heavy-duty transportation requirements. Reliable vehicles and experienced staff ensure your load's safe and timely arrival at its destination.

Load insurance of R 4, 000, 000.00 comes standard and for loads of a higher value, insurance is adjusted to suit the client's cargo.

LOWBED AND HEAVY-DUTY TRANSPORTATION:
